

Who We Are

The Georgia Recreation and Park Association was formed in 1945 as a private, non-profit Institution to support and promote the recreation and park industries within the state of Georgia. It is the only state organization that serves as an advocate for quality recreation and park areas, facilities, programs and services at the local level. The Association is governed by a 34 member Board of Trustees and has a membership in excess of 1600.

The Georgia Recreation and Park Association's mission includes, promoting healthy life styles through the utilization of park facilities and recreation services for the well being of each citizen individually and the community as a whole, insuring that park and recreation services are available, and providing organized, supervised activity as a means of prevention for a number of circumstances (disease, stress, etc.) including the prevention of juvenile delinquency. The Association membership is made up of public agencies, private businesses, educational institutions, clinical settings and citizen advocates whose primary responsibility is to provide recreation opportunities.

The Association believes that the delivery of recreation and park services in the state has tremendous impact economically, environmentally and socially.
